MARCH 2011

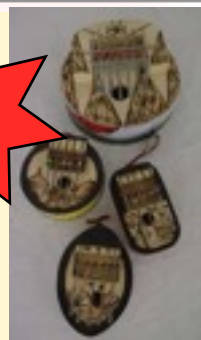

Mexican Sarape Blanket Bright and suitable for a variety of uses, including beach blankets, picnic rugs, yoga mats, table cloths, throws, car rugs and more. These genuine Mexican blankets make lovely and unique gifts. Fully machine washable and very long lasting, **priced from \$74.95**
This product is a genuine item of excellent quality woven by a co-operative in a small town about 2 hours north of Mexico City

West African Musical Instruments

Basket Shakers - Hand-woven like a basket. Seeds inside produce a pleasing soft rattle.
Bolga Shakers - Woven from elephant grass with beads inside and leather "drum" on bottom. Both are made in Ghana West Africa
Kalimba Thumb/Finger Pianos - Recycled food tin base acts as a resonator, just like a guitar. Easy and fun to play. Hold with both hands at the front edge and pluck the tuned metal keys. It's hard to make it sound bad, and in the right hands there are no limits. Made in Burkina Faso, West Africa

Fab Rugs

Fab rugs are made from recycled polypropylene obtained by recycling discarded plastic shopping bags and other plastic waste. These rugs are beautifully crafted using designs inspired from different regions of the world under fair trade practices. These include both classical designs inspired from Asian motifs as well as contemporary European designs. Fab Rugs are outdoor & indoor rugs which are light, easy to carry & store, soft, yet durable and look absolutely heartwarming. The large rugs can be used to add a dash of color to your surroundings. Take them for camping or to the beach with your family to create your own comfortable space.

Keep Cup

Barista Standard reusable cup, designed and manufactured from food safe polypropylene. Sealable and lightweight, dishwasher and microwave safe. Matches standard industry coffee sizes and fits in car cup holders. Available in a large range of colour combinations in 3 sizes. **Prices start at \$13.95**

Mudbrick organic cotton t-shirts for men & women are made in Australia from certified

organic cotton fibre grown in India. Fabric is knitted in Australia and coloured with low impact Eco dyes. Organic Cotton is grown without chemical control and organic farmers employ century old methods of pest and weed control including crop rotation, hand and mechanical weeding and the introduction of beneficial predatory insects.

Journals

We have a comprehensive range of eco-friendly, recycled journals in various sizes in stock, some made from Elephant Dung, some from recycled magazines and paper and even some from old tyres!

He Sells Sea Shells By The ..

The shells in our range are abundant, commercial-grade shells that have originally been collected for food or are the by-product of licensed fishing and aquaculture operations. The shells are purchased through 'Marine Art' who have obtained many from overseas communities particularly those in the Pacific region, the sales of these shells provides many of these communities with financial support and is often their sole source of income. The coral is obtained from beaches along the east coast of Australia particularly Queensland, which has been washed up on shore. Part proceeds from the sale of this coral assists 'The Great Barrier Reef Park Authority' with research into climate change.

NEW

Flip-Flops Thousands of discarded flip-flops are washed up on the african shoreline each year, this creates an environmental disaster for the marine eco-system, as the indestructible rubber spoils the natural beauty of the beaches and is mistakenly swallowed by marine animals. Local communities on the east cost of Africa and now motivated to collect and recycle discarded waste. These african animals have been carved by hand from used flip-flops and the earnings from the creation of these products allow local communities to maintain the way of life and provide a better future for themselves and their families.

NEW
